Subject: DNT comments - Christy

Thanks, Christy!

I will come to the Repro meeting and we can discuss any issues that arise when I go through your comments (doubtful, as I didn't notice any comments I disagree with: Ex. 5 Deliberative Process (DP)) and if there are specific issues you want to raise, can you do so in that context? Sue, if you would prefer, we could make this the agenda for next week's Ntox meeting, and interested repro people can come?

FYI to Ntox team: DNT review added to L drive folder.

Hi Andrew,

Attached are my comments on the NTX section for your consideration.

In going through the text, I found it rather useful to use the questions you posed to all reviewers of this section to guide my comments. I denoted comments that are specific to DNT with green text in the attached and tried to consider the changes that you're currently undertaking based on comments from John and Ambuja when providing my suggestions.

If any of my comments are unclear, or you would like to discuss further then please don't hesitate to contact me.

Thanks,
Christy

Subject: RE: Upcoming WG meetings--- Ntox issues resolution summary

Hi Kate,

Our group has completed their review process; I am currently implementing the recommendations.

Some people will still be looking at the epi information (note: this is currently being reorganized), and Christy will be looking specifically at the DNT; however, I expect any additional changes will be minor- or else in keeping with the neurotox group recommendations. I also cc'd Bob and Vince, in case there are other groups or management leads that would like to know the Ntox group issues and how they are being resolved.

Here are the approaches to issue resolution that are being implemented:

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

These notes and reviewer comments can be found in the Neurotoxicity Group folder on the L drive:
L:\Lab\NCEA\Neurotoxicity Specialty Group\Formaldehyde Review Materials 2013

Great! ☺ Here's the meeting roster I'll send to our group now. Feel free to copy and recirculate at your discretion!

John/John, Andrew, and Marty/Kathleen: let me know if/when your groups will meet if you'd like our optional participation; you can also just forward any calendar invitation for further forwarding.

Thanks,
Kate

Hi WG co-chairs,

I think I may have already sent this info, but just in case it slipped through the cracks...the epi WG has its review meeting scheduled for July 23, 11am-1pm (in N7771). Please share this information with your group members if any of them would like to attend.

Thanks,
Krista and Amanda
